SRI SAI BALAJI CHILD WELFARE AND EDUCATION SOCIETY

SRI SAI VIDYALAYA ENGLISH MEDIUM SCHOOL

ACTIVITY REPORT

2022-2023

Sri Sai Balaji Child Welfare & Educational society (No-223 of 2005) is a non-profit organization established on 25th April 2005 with the vision of empowering rural, economically backward, orphaned, semi orphaned and migrant children in and around Puttaparthi Mandal, Sri Sathya Sai District, Andhra Pradesh, India, to enable lives of children to their full potential, with focus on language and literacy development for children.

Why we do, what we do:

Sri Sathya Sai district is one of the most backward districts with draughts and inadequate rainfall every year. With lack of employment and lack of opportunities to earn minimum basic income, even the people in villages find it hard to earn their daily bread & butter and migrate to other cities in search of work with an aim for a better livelihood. The literacy rate is at its lowest in the rural areas, 30-40% of the children are either uneducated or they drop out in primary school after 4th-5th class. As a result, they are largely isolated from mainstream society, unemployed and lead poor quality of lives. In order to develop and improve their lives by making them self dependent in the most effective way is through education.

*School Premises of Sri Sai Vidyalaya.

We work in three areas:

1) Education:

Education & Literacy programme: We support children age between 5-15 years who come from families with economically poor background, with no prior access to education, children from disabled parents, by enrolling them in the school maintained and run by Sri Sai Balaji Child Welfare & Educational society. We believe access to education in the early ages of children is the key to bringing improvement in their lives.

Our core objective is to bring transformative change in the lives of children through education. We strive hard to ensure that each child acquires language and literacy skills essential to cope with the present competitive world. Along with skills they acquire in their early years through Language & Literacy programme, they also acquire functional skills, skills to be independent and skills to advocate for themselves. All these skills inculcated in their foundation years, further help them to enrol and graduate from degree colleges to get employment opportunities, thereby breaking the vicious cycle of poverty.

2) Providing Mid-day meals:

Most of the parents of children from our school are daily labourers; they leave home early to work and return home late in the evening. Feeding their children with a nutritious meal is a difficult job for them. Due to which many children are underdeveloped physically and are under nourished. In order to prevent this, the school provides the children with a nutritious and healthy meal everyday in the school premises.

*School children praying before they consume their mid-day meals.

3) Free Books, stationary & uniforms:

In order to reduce the burden on the economically backward parents, the school provides books, stationeries and uniforms to the students every academic year. This motivates a lot of parents to enrol their children in our school.

*Students being distributed with books.

➤ **Vision:**

Our vision is to educate every child without any discrimination of caste, creed, religion or socio-economic background by motivating and equipping them with the right skills and tools in their foundational years, in order for them to reach their fullest potential. We aim to achieve this by equipping children to have strong foundational skills and abilities of language and literacy, thinking and reasoning.

➤ **Mission:**

Our mission is to help children who don't have access to schools and are from poor socio-economic background, to get good education. The focus will be on building a strong foundation for language, leading to age appropriate literacy and educational skills to bring them at par with their peers.

Employment access will be provided through better training programmes at high school level, we aim to provide employable skills like tailoring, carpentry, Handicrafts, computer programming etc.

➤ **Strategic approach:**

1. Education:

- a) Create a standard knowledge and training curriculum for classrooms, offer language and literacy courses, along with technical skills.
- b) Form partnerships with IT firms to enable technology based education and employable skills for higher and middle school students
- c) Workshop for students on Computers and technology.
- d) Conduct workshop on tailoring with children to equip them with technical and employable skills.
- e) Conduct counselling for class 10th and 12th students from our school & other schools to help them understand and explore the opportunities and options available to them based on their skills and interests.

*Students attending their daily classes.

2. Medical And Dental Health Camps:

- a) Medical camp: Post Pandemic, it was essential to guide the students on how to take care of themselves and we did so by adopting the following:
 - Conducted health education lectures and awareness programmes
 - Hand sanitizers were provided to students.
 - Mouth masks were provided to students.
 - Sanitization of school premises was done frequently.
 - Health supplements were given to students.
 - Periodic health check-ups were conducted for students and staff.

* Creating public awareness on Mosquito Bite.

b) Dental health Camp:

Importance and awareness of dental health hygiene was raised, along with check-up for students every year.

*Students being checked by professional doctors at medical & Dental Health camp arranged at our school.

3. **Educational Tour:**

This year, we took our students on a educational tour, in order for them to learn through interactions, nature and real-life situations. This enhances their communication skills, sense of teamwork, and community building.

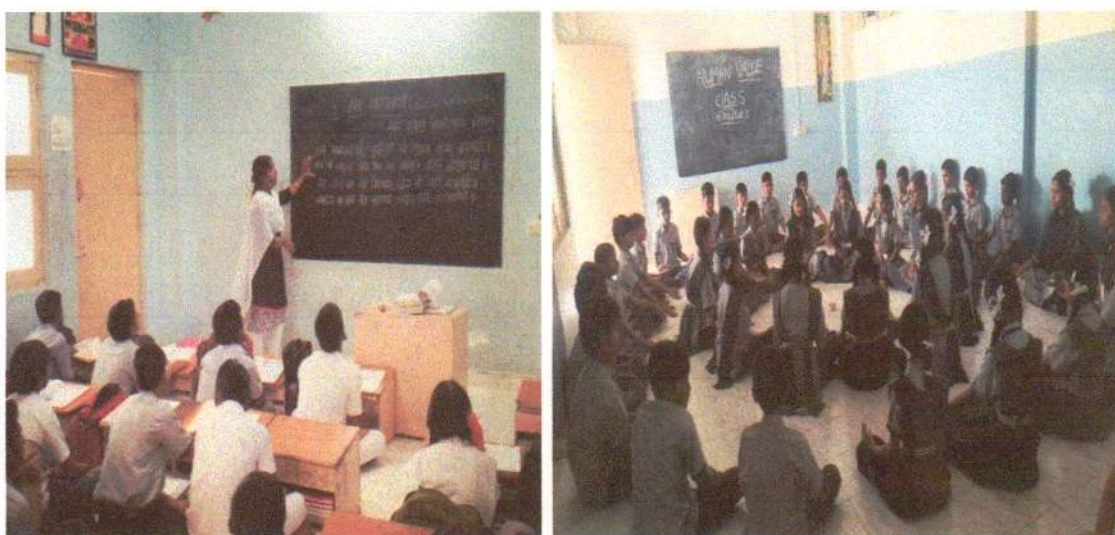

*Students taking part in the tour.

4. Daily school activity:

The students have a set time table of activities throughout their whole day for maximum utilisation of time in an optimum way.

TIME	ACTIVITY
08:45 AM to 09:00 AM	School Prayer
09:00 AM to 09:45 AM	1 st Period
09:45 AM to 10:30 AM	2 nd Period
10:30 AM to 10:40 AM	BREAK
10:40 AM to 11:25 AM	3 rd Period
11:25 AM to 12:15 AM	4 th Period
12:20 PM to 12 : 35 PM	Meditation
12:40 PM to 01: 35 PM	Lunch Break
1:40 PM to 02: 25 PM	5 th Period
2:25 PM to 03:10 PM	6 th Period
3:10 PM to 03:20 PM	Break
3:20 PM to 04:00 PM	7 th Period
4:00 PM to 04:35 PM	8 th Period

*In pic1: Students are taking part in their daily classes. In pic2: Students are meditating during their meditation class.

5. Curriculum Activities in school:

Monthly curriculum activities of the school are as follows:

Month	Curriculum Activities
July	Formative Assessment 1
August	Formative Assessment 2
September	Summative Assessment 1
November	Formative Assessment 3
January	Formative Assessment 4
April	Summative Assessment 2

6. Language and Literacy Programme:

The school, along with education, conducts extracurricular activities to ensure overall development of children.

a) 18th June; International Picnic Day:

On this day, we took our students out for a day of fun and refresh in order for them to cherish every experience and to provide them with a holistic and all rounded education.

*Students enjoying their day out.

b) 21st June; International Yoga Day:

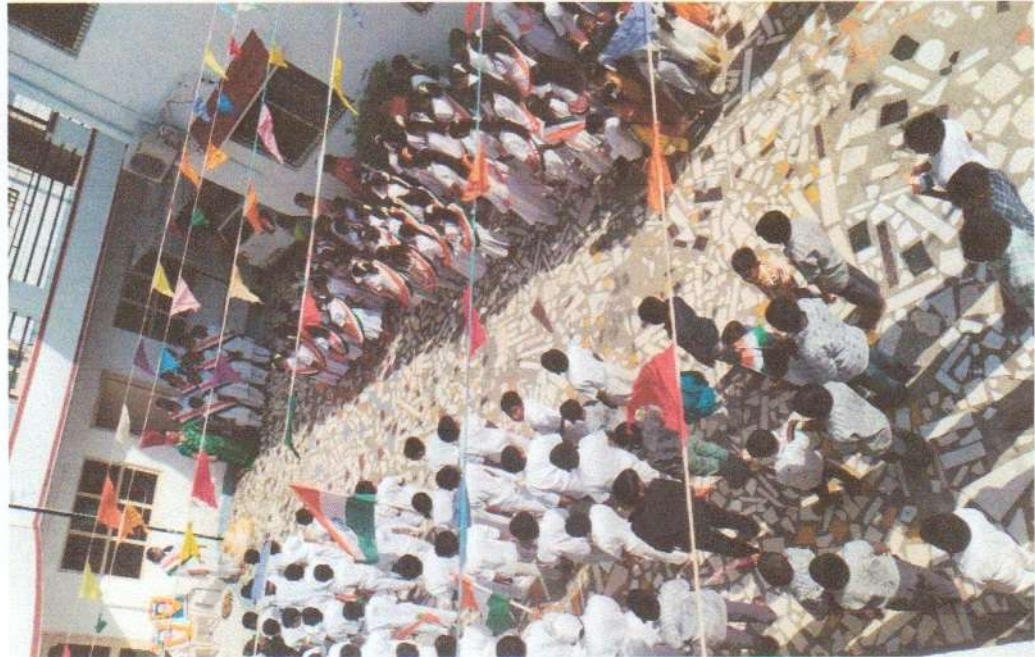

The teachers of the school engage students in yoga and meditation practice on daily basis along with a special class on this day to teach them the importance of yoga and its benefits.

*Children taking part in meditation on International Yoga Day.

c) 15th August; Independence Day:

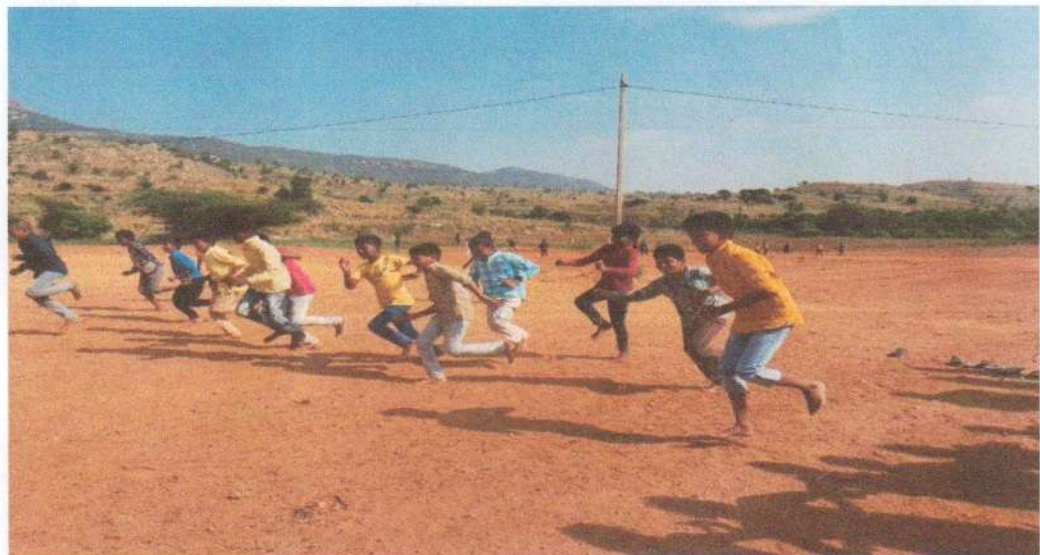

On this Day, Children participate in Flag Hoisting and give speeches about our Independent India and its freedom fighters.

*Children celebrating Independence Day.

d) 29th August; National Sports Day:

The school conducts various sports activities for children to participate, in order for them to develop a competitive spirit:

*Students taking part in sports on National Sports Day.

e) 29THAugust; Mathrubhasha Dinotsavam:

In this fast pace moving world with languages such as English taking over our Indian Culture and language, our teachers take time to teach our students the importance of local languages and Mother Tongue.

*Students taking part in a fun activity to form letters in Telugu.

f) 1STSeptember; National Nutrition Week:

The National Nutrition Week is a global healthcare event focussed on nutrition. In India, it is observed for the first week of September every year since 1982. During this day, students are taught about the importance of healthy eating and how to include protein, fibre, carbohydrates and vitamins in their diet through the use of local grains, millets, vegetables and fruits.

g) 5THSeptember; Teacher's Day:

On this day, the teachers, teach them about our country's First Vice President and former President Dr. Sarvepalli Radhakrishnan and the importance of 5th September as Teacher's Day. In return, the students thank their teachers and staff for the knowledge they share with them and conduct activities for teachers to take part in.

*Teachers taking part in Teacher's Day and honouring Dr. Sarvepalli Radhakrishnan.

h) 14thSeptember; Hindi Diwas Day:

*Students taking part in Hindi Diwas.

i) 2ndOctober; Gandhi Jayanti:

For Gandhi Jayanti, students are encouraged to clean the school surroundings and we teach the students, the philosophy and learning's of the Father of Our Nation. Further, we teach them the importance of Swachh Bharat Abhiyan.

j) 15thOctober; World Students Day; Dr. APJ Abdulkalam Birth Anniversary:

On this Day, we remember and teach our children the teachings and achievements of Dr. APJ Abdul Kalam and the importance of science in his life.

k) 15thOctober; Global Hand Washing Day:

Ever since Covid Pandemic, we educate our children on the importance of hygiene and hand wash for a healthier life.

*Students taking part in the activity.

l) 14thNovember; Children's Day:

On occasion of Jawaharlal Nehru's Birthday, Children's Day is celebrated. The teachers and students honoured our First Prime Minister of India and later students took part in various activities such as speeches, skits, singing, dancing, and fancy dress competitions.

*Students taking part in skits and fancy dress competition for Children's Day..

- a) 22nd December; National Mathematics Day:
Students take part in Mathematics Day by making different projects learnt from their curriculum, to show their peers and teachers.

*Picture of a group of student showing their project.

- b) 22nd January; Ammaku Vandanam:
On this day, Mothers of our students are invited to school to give thanks and show gratitude to them by their children. This is conducted in order for children to learn the importance of parents and the sacrifices they make. As a result, the children develop empathy.
- c) 26th January; Republic Day:
Republic Day is celebrated in the school by hoisting our National Flag and giving speeches on the importance of the day.

d) 29th January; Indian News Paper Day:

On this day, students are encouraged to read news papers to acquire current affair knowledge.

*Students reading Newspaper.

e) 28th February; National Science Day:

On this Day, Students form groups and prepare various science projects and exhibit it to their peers, esteemed guests and students. Further awards are also given for participation.

* In pic1: A group of students showcasing an irrigation project. In pic2: A class of students displaying their projects.

7. Classes on Moral & Human Value:

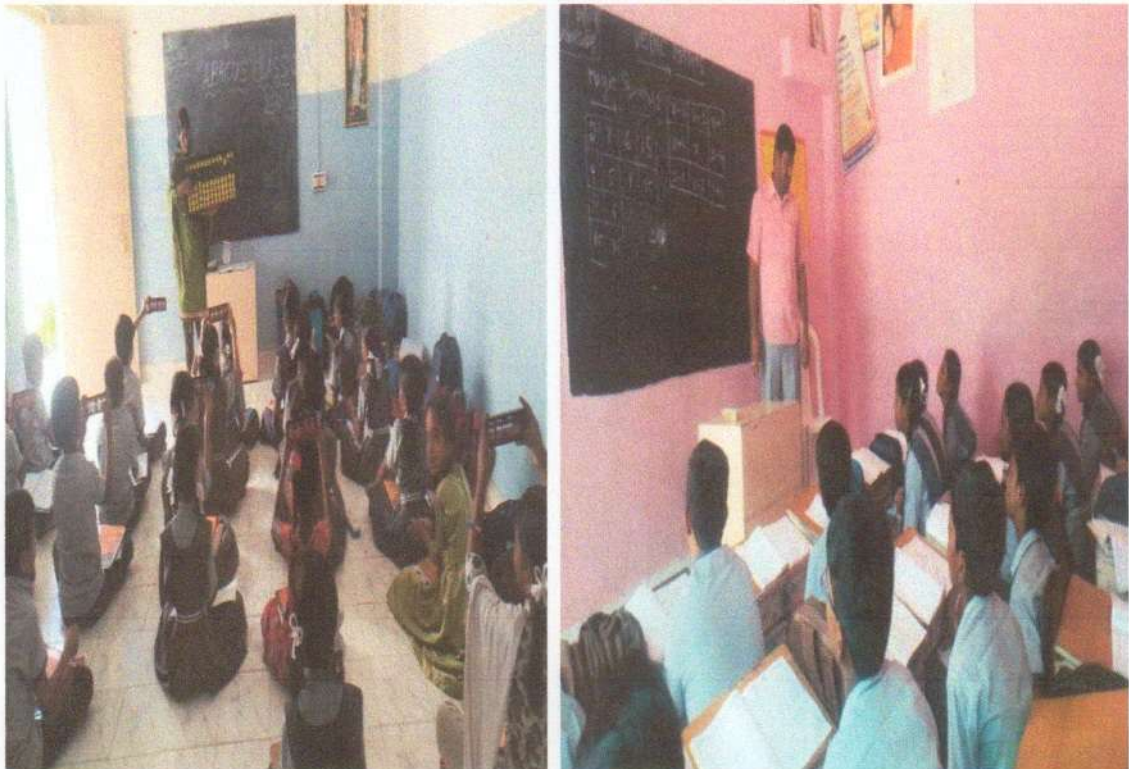

Along with language and literacy program, students take part in moral and human value classes as part of their curriculum.

*Students taking part in moral & human value classes.

8. Abacus Classes And Vedic Maths:

We ensure our children are equipped with the right tools to succeed in the world by equipping them with Abacus and Vedic maths classes for easier and smarter learning.

*In pic1: students learning Abacus. In pic2: students learning Vedic Maths

9. Training Teachers:

Training teachers is of utmost importance in order to give our children the best of education. With that as our goal, the society conducts Teacher Training classes every academic year, in order for teachers to be up to date with their teaching skills. This is done to ensure our students get the best of education.

*Teachers taking part in their training.

10. Parent Workshop:

Parent workshop is conducted to empower our parents by including them in our language and communication support classes, so that they can not only communicate with their own children, but advocate for them wherever required.

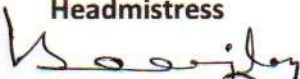

11. Career Counselling and Special Classes:

- a) Our school conducts counselling for class 10th and 12th students from our school & other schools to help them understand and explore the opportunities and options available to them based on their skills and interests.
- b) We continue to offer counselling to parents of our students to empower their children to lead lives of full inclusion.
- c) Further, the school managements provided special classes for various entrance examinations such as Eswaramma School, Navodaya School APRJC, Gurukula, RDT Entrance Examinations.

Achievements:

- a) We got 12 Teaching staff And 4 Non teaching staff in our school. Further, 16 staff members and 185 children belonging to almost 150 families are getting benefited through our Society.
- b) The 2022-23 batch of class 10 students were out of school with flying colours, i.e. all 8 students who appeared final exams all passed. The overall result of our school in the academic year 2022-23 was 100%.
